

ENVIRONMENTAL REPORTING REQUIREMENTS IN MARYLAND

This course provides an overview of the environmental reporting fundamentals and requirements during a typical calendar year for the state in which the course is being presented. The course addresses major environmental reports required during a calendar year through the implementation of practical work exercises that cover program applicability through completion of required forms. A discussion of best practices, or compliance techniques, is also provided.

Course fee includes a comprehensive resource manual, refreshments, and lunch.

AGENDA: Registration and Coffee at 7:45 am
